AMTRAK NAMES INDUSTRY VETERAN WICK MOORMAN PRESIDENT AND CHIEF EXECUTIVE OFFICER

WASHINGTON, D.C. – Amtrak announced that it has named Charles W. “Wick” Moorman as its next president and chief executive officer. Moorman, retired chairman, CEO, and president of Norfolk Southern Corp. (NS), will lead the company, effective September 1, 2016, in the next fiscal year.

Anthony Coscia, chairman of the Board of Directors of Amtrak said, “We are very pleased that someone with Wick’s experience and vision will lead Amtrak during this critical period as the company charts a course for future growth and improvement. Under CEO Joe Boardman, and with the support of the Administration and Congress, Amtrak has achieved record levels of performance and investment. The Board believes Wick can build upon this success in the coming year by launching initiatives to further enhance safety and customer service, modernize our operations, and guide our implementation of the FAST Act.”

“It is an honor and privilege to take on the role of CEO at Amtrak and I look forward to working with its dedicated employees to find ways to provide even better service to our passengers and the nation,” said Moorman. “At Norfolk Southern, our team fostered change by placing a solid emphasis on performance across all aspects of our business which helped develop a stronger safety and service culture throughout the company. I look forward to advancing those same goals at Amtrak and helping to build a plan for future growth.”

Moorman, a native of Hattiesburg, Miss., comes to Amtrak after more than 40 years at NS where he rose from management trainee to CEO and chairman of the Board of Directors. Having worked with NS from the ground up, Moorman gained an appreciation for the many facets of railroad operations and used this knowledge to modernize the way NS conducted business, served customers and worked with communities. A graduate of Georgia Tech and

Harvard Business School, Moorman serves on the boards of Duke Energy Corporation, Chevron Corporation, the Virginia chapter of the Nature Conservancy, and the Georgia Tech Foundation.

“Wick’s deep operational background and track record of building teams and driving innovation is exactly what we need to provide unparalleled service to the more than 500 communities we serve,” said Vice Chairman of the Board of Directors Jeffrey Moreland. “We are confident that, working together with the Board, Wick can formulate a strong plan to take Amtrak to the next level and assemble the management team and expertise to carry it forward.”

Moorman succeeds current CEO Joe Boardman, who announced his intention to retire last fall. “I have been humbled to lead this extraordinary organization over the past eight years,” said Boardman. “I look forward to spending time with my family and wish Wick all the best as he brings his excellent experience to Amtrak.”

“The Board and I thank Joe for his dedicated service to Amtrak and its customers and for his long career in public service. Under his leadership, Amtrak delivered record ridership, introduced a series of safety initiatives and modernized its fleet. For this, he should be proud,” Coscia said.

Moorman currently holds securities of a rail carrier. Amtrak will ensure that any conflict will be avoided as is required by federal law.

About Amtrak®

Amtrak – America’s Railroad® – is dedicated to safe and reliable mobility as the nation’s intercity passenger rail service provider and its high-speed rail operator. With our state and commuter partners, we move people, the economy and the nation forward, carrying more than 30 million Amtrak passengers for each of the past five years. Formally known as the National Railroad Passenger Corporation, Amtrak is governed by a nine member board of directors appointed by the President of the United States and confirmed by the U.S. Senate. Anthony R. Coscia is board chairman and Jeffrey R. Moreland is vice chairman. Amtrak operates more than 300 trains daily – at speeds up to 150 mph (241 kph) – connecting more than 500 destinations in 46 states, the District of Columbia and three Canadian Provinces.
