

Airo Fleet: Built by America

The production of the Airo fleet is boosting businesses nationwide as manufacturing ramps up

3,500+ parts manufactured by nearly **100** suppliers in **31** states

STATES WITH SUPPLIERS

As we build to support the soaring demand for train travel, the Airo fleet is creating jobs even before the trains are on the track.

— Amtrak President Roger Harris

Manufactured in the U.S.
At Siemens facilities in NC and CA and complies with the Federal Railroad Administration Buy America Standards.

83
Airo Trains

With an initial purchase of **73** trains, Amtrak purchased **10** more as **demand for rail travel** exceeded expectations. The new trains are scheduled to debut in **2026** and will operate on routes throughout the country.

Airo Fleet: Built by America

Even more advantages to traveling by rail

ELEVATED EXPERIENCE

With its modern, spacious interior and panoramic windows, customers have an improved view of the best sights in the country while connecting to the passing landscape.

REDUCED TRAVEL TIMES

Operate at speeds up to 125 mph on sections of some East Coast Routes; offer a seamless transition between power sources where time-consuming locomotive changes were previously required.

WAYFINDING

Signage creates a cleaner, more evident and accessible way to identify and differentiate cabins – both on the exterior and interior through a color-coded system.

SPACIOUS SEATING

Each seat prioritizes ergonomics, offers enhanced comfort with plenty of legroom, bigger and sturdier tray tables, moveable headrests and a dedicated cup and seatback tablet holder.

CAFE CAR

More contemporary food service provides self-service options.

AMENITIES

Features enhanced lighting, improved technology with digital customer information systems and touchless restroom controls, dedicated individual outlets, USB ports and onboard Wi-Fi.

BUSINESS CLASS

Choice of double and single seats offer customers greater flexibility.

MODERN TECH

New 5G enabled Wi-Fi and digital information systems.

GREATER ACCESSIBILITY

With onboard passenger lifts, increased accessible spaces and enhanced audible and visual messaging that will improve the experience for all customers.

DEDICATED WATER STATIONS

Provide chilled and filtered hydration.
